Modular Design

Multiple Communication Protocol

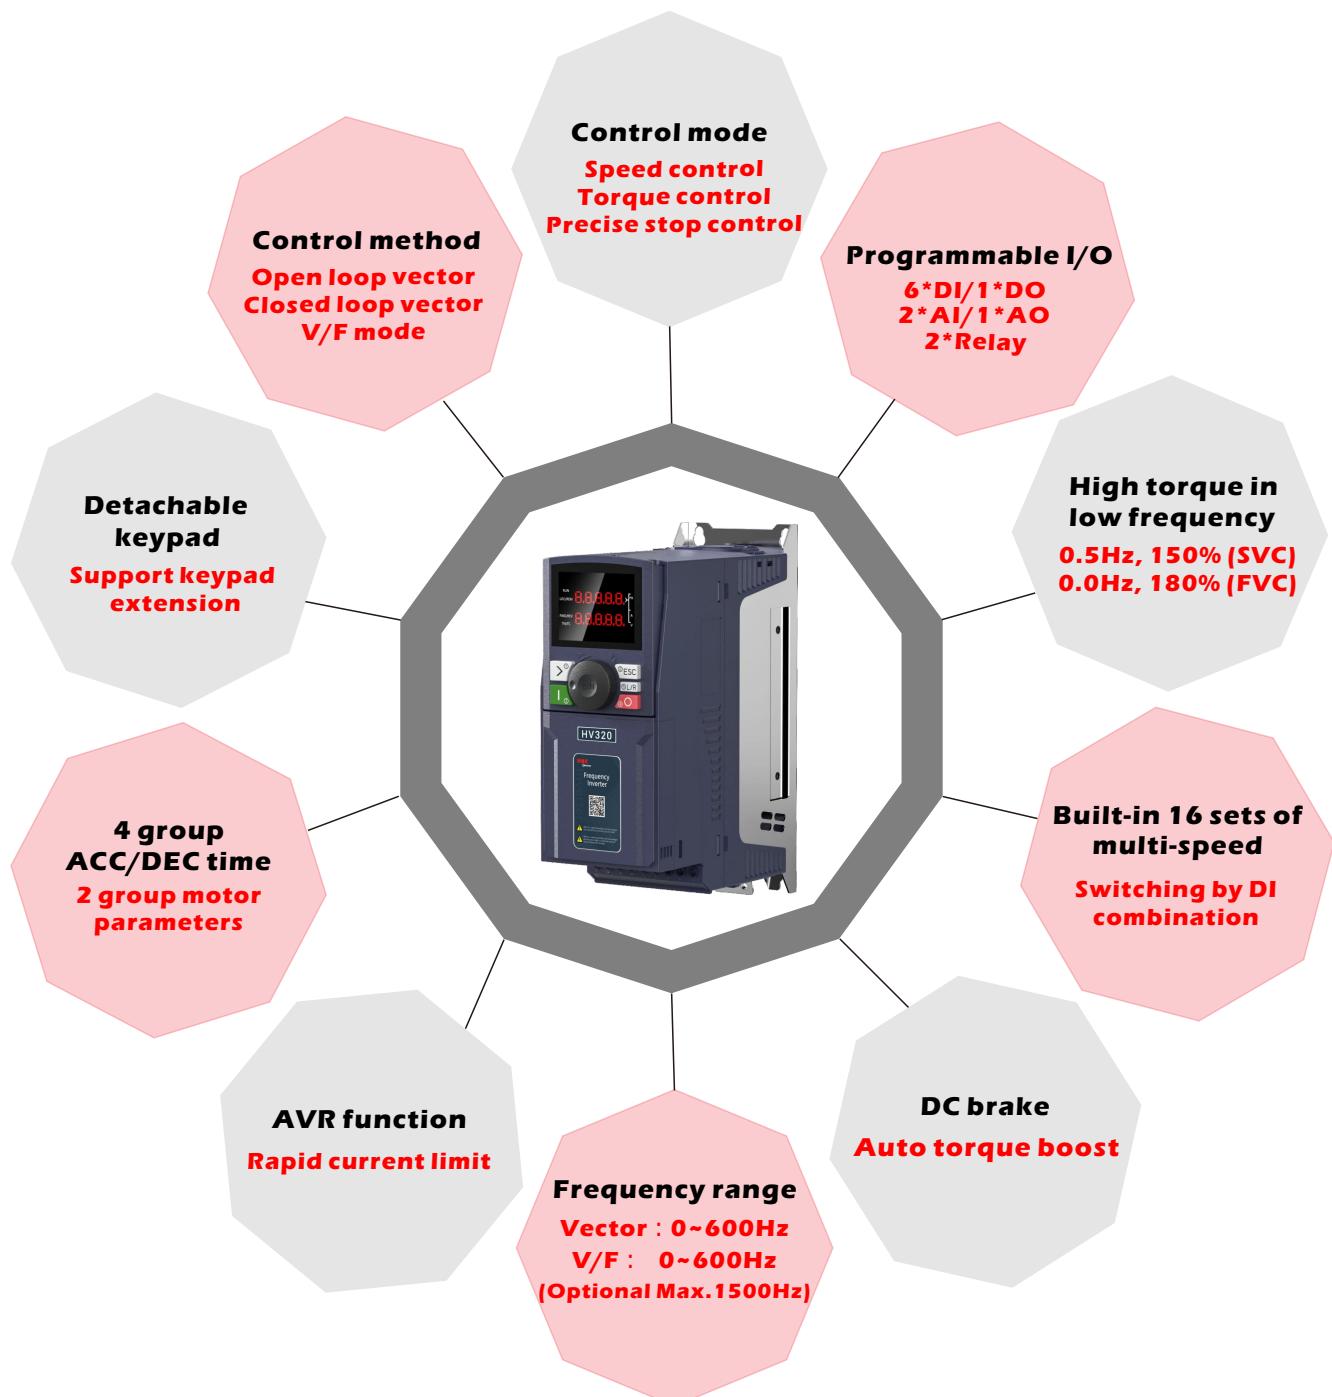

AC Induction Motor and PM Motor Control

**High Performance Closed Loop/
Open Loop Vector Control**

Basic specifications

Voltage	Power	
Single phase AC220V	0.4kw~4.0kw	Based on listening and understanding of customers' requirement, HV320 supports full range of input voltage , complete functions for different countries and applications.
Three phase AC220V	0.4kw~220kw	
Three phase AC380V~480V	0.75kw~800kw	

High performance vector control inverter

Product advantages

Modular design

Modular design makes the installation and stock easier and more flexible. Customer could change PG/Communication cards/Control boards easily.

Multiple communication extension cards

Built-in Modbus RTU, with various communication extention cards.

Built-in 2*STO

Built-in 2 channels STO, To ensure high safety features in applications.

LED/LCD keypad options

Standard 2-line LED keypad;
LCD keypad option which could show more information, copy and paste parameters between different VFD.

Control of multi-types of motors

Open/Closed loop control of Synchronous/Asynchronous motor.

Supports of multiple encoders

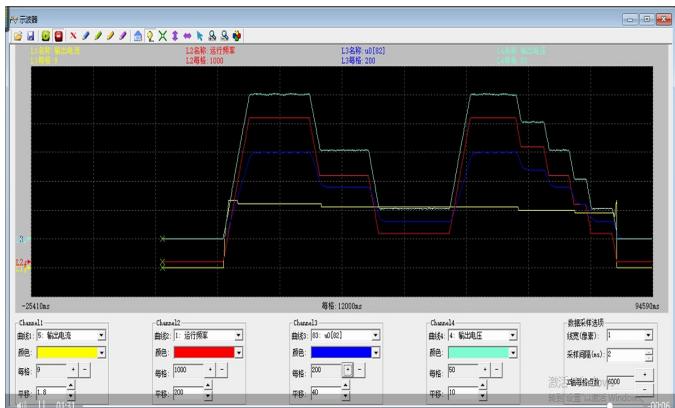

HV320-PG-DIF-V2

Supports differential (compatible with 5V power supply) and open collector (compatible with 5V/24V power supply)

HV320-PG-RB-V2

Support resolver

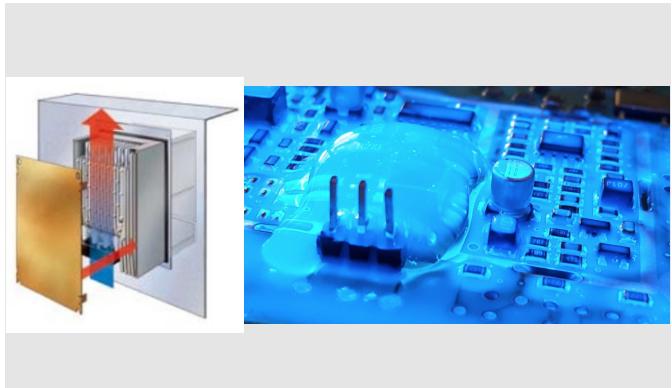

Supports multiple encoder interfaces such as open collector, differential, resolver, etc.
Convenient for closed-loop vector control.

Product advantages**Commissioning software on PC**

Monitor operating status via PC, optimize, modify, back up and copy data parameters.

Constant pressure water supply

HV320 perfectly supports the constant pressure water supply function.

Long-life design

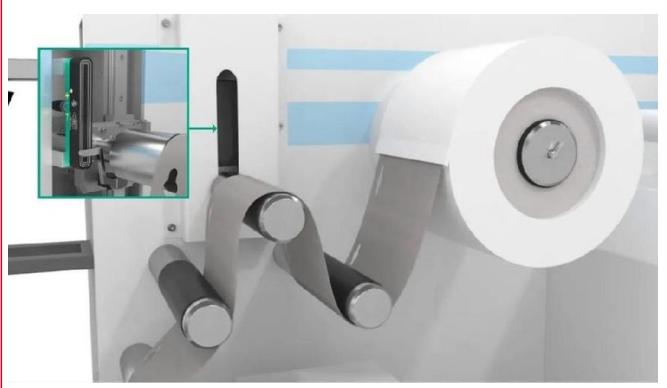

The independent air duct design and UV glue protective coating ensure that the product can run stably for a long time in harsh environments

Special Mode**Synchronous motors model-HV320S**

Support open&closed loop vector mode Optimized control algorithm with high synchronization control accuracy.

Solar pump model-HV320P

HV320P has a powerful solar pump function.

HV320-WU

Winding&Unwinding model-HV320WU
HV320WU is designed for winding and unwinding applications

High performance vector control inverter

Model Definition

HV320 - 7R5 G 3			
1	2	3	4
① HV 320 Series Inverter			③ Code Inverter Type G General Purpose
2	Code Motor R75 0.75kW 7R5 7.5kW 011 11kW 018 18.5kW 110 110kW 400 400kW	④ Code Inverter Type 1 Single phase 220V 2 Three phase 220V 3 Three phase 380V-440V 4 Three phase 460V-480V	
Note: HV320S is Dedicated to PMSM motor. HV320P is Dedicated to solar pump. HV320WU is Dedicated to winding&unwinding.			

HV320 series inverter specifications

Model	Input current (A)	Output current (A)	Adaptive motor (kW)	Power supply capacity (kVA)
G1 input voltage range: Single-phase AC220V±15%, 50 / 60 Hz

Specifcaiton

Items	Description
Highest frequency	Vector control: 0 ~ 600 Hz; V/F control: 0 ~ 600 Hz (Optional Max.1500Hz)
Carrier frequency	0.5kHz~16kHz The carrier frequency can be automatically adjusted according to the load characteristics
Input frequency resolution	Digital setting: 0.01 Hz; Analog setting: highest frequency * 0.025 %
Control mode	1: Open loop vector control (SVC) 2: Closed loop vector control (FVC); 3: V/F control
Start torque	0.5Hz/150% (SVC) ; 0Hz/180% (FVC)
Speed control range	1 : 100 (SVC) 1 : 1000 (FVC)
Speed stabilization accuracy	±0.5% (SVC) ± 0.02% (FVC)
Torque control accuracy	±5%
Overload capacity	150 % rated current 60s; 180 % rated current 3s
Torque increase	Automatic torque increase; The manual torque is increased by 0.1 % - 30.0 %
V/F curve	Linear; Multipoint type; N - power V/F curve (power 1.2, power 1.4, power 1.6, power 1.8, power 2)
V/F separation	Two methods: full separation and half separation
Basic function	Straight line or S curve acceleration and deceleration mode. Four kinds of acceleration and deceleration times, The acceleration and deceleration time range is 0.0 to 6500.0 S.
	DC braking frequency: 0.00 Hz ~ maximum frequency Braking time: 0.0s ~ 36.0s Brake action current value: 0.0 % - 100.0 %
JOG	Inching frequency range: 0.00 Hz ~ 50.00 Hz. Inching acceleration and deceleration time 0.0s ~ 6500.0 s
Simple PLC, multi-stage speed operation	Up to 16 - speed operation via built-in PLC or control terminal
Built - in PID	Closed-loop control system capable of conveniently realize process control
Automatic voltage regulation (AVR)	When the grid voltage changes, the output voltage can be automatically kept constant
Over voltage and over-loss rate control	Automatically limit the current and voltage during operation to prevent frequent over current and over voltage trips.
Fast current limiting function	Minimize over-current faults and protect the normal operation of the frequency inverter
Torque limitation and control	The " excavator" feature automatically limits the torque during operation to prevent frequent over current trips; Open loop vector mode can realize torque control

High performance vector control inverter

Specifcaiton

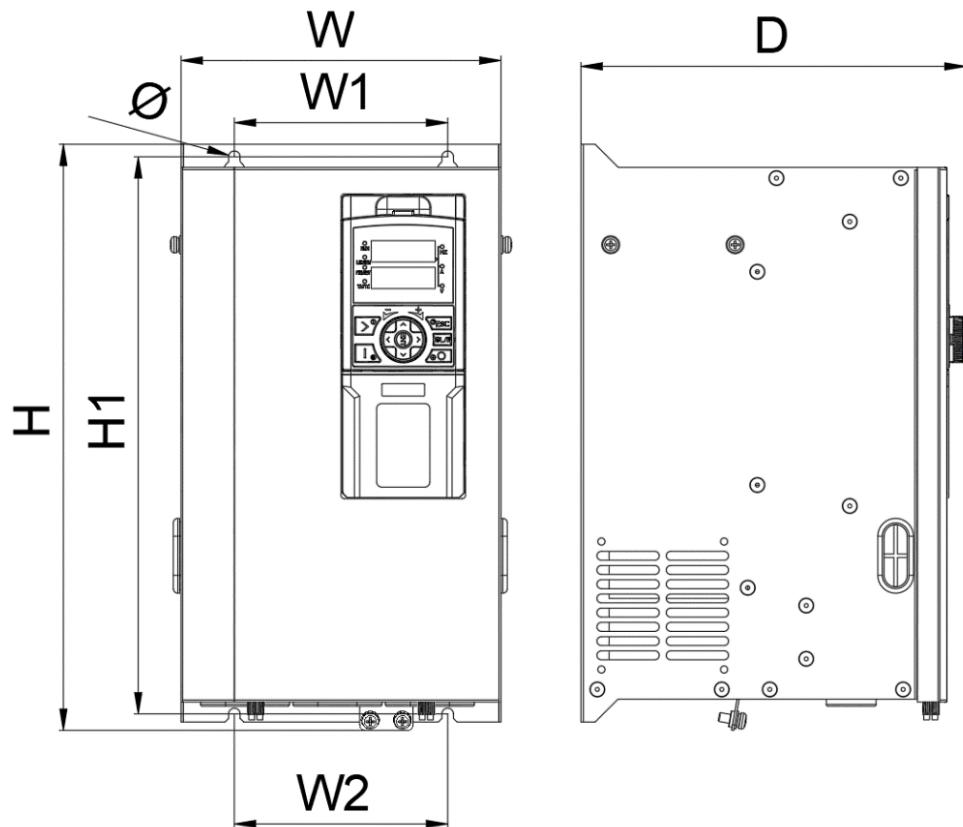

Items	Description
Individualized performance	Virtual IO Five sets of virtual DIDO, which can realize simple logic control
	Motor overheat protection Optional motor overheat expansion card accepts motor temperature sensor input (PT100/PT1000)
	Various types of encoder feedback Support differential, open collector type encoder, support resolver
	STO function Two STO (Safe Torque Off) terminals makes the system safer and more reliable
	Outstanding performance Using high performance current vector control technology to realize asynchronous and synchronous motor control
	No shutdown in case of momentary power outage When the instantaneous power failure occurs, the load feedback energy compensates for the voltage drop and the frequency inverter will continue to operate for a short period of time
	Fast current limiting Avoiding frequent over current faults of the frequency inverter
	Timing control Timing control function: set the time range from 0.0 min to 6500.0 min
	Multi-motor switching Four sets of motor parameters can realize switching of four motors
Running	Communication Built-in RS-485. Optional: PROFIBUS-DP PROFINET; EtherCAT; Modbus TCP; EtherNET/IP; CANlink
	Command source Operation panel setting, control terminal setting, serial communication port setting. Can be switched in various ways
	Frequency source 10 frequency sources: Digital setting, analog voltage setting, analog current setting, pulse setting, serial port setting. Can be switched in a variety of ways
	Auxiliary frequency source 10 auxiliary frequency sources. Flexible auxiliary frequency fine-tuning and frequency synthesis
	Input terminal Standard: 6 digital input terminals (DI1~DI6), HDI5 supports high-speed pulse input up to 100kHz. 2 analog input terminals (AI1~AI2, AI1 only supports 0~10V ;AI2 supports 0~10V/4~20mA Safety function (STO) interface (STO1, STO2)
Environment	Output terminals Standard: 1 digital output terminal (DO1) 2 relay output terminals (TA1-TB1-TC1, TB2-TC2) 1 analog output terminal (AO1), supports 0~10V/0~20mA
	Place of use Dust - free, metal dust, corrosive gases, flammable gases, oil fog, salt fog, water vapor, dripping direct sunlight - free indoor
	Altitude Below 1,000 meters
	Ambient temperature -10°C~40°C,(When the ambient temperature is 40°C~50°C, please use at a reduced rating)
	Humidity Less than 90 % RH without condensation
	Vibration Less than 5.9m/s2(0.6g)
	Storage temperature -20°C~+60°C
	Protection grade IP20

Picture	Model	Description
A black metal DIN rail mounting bracket with a green printed circuit board (PCB) inserted into it.	PG card HV320-PG-DIF-V2	Supports differential (compatible with 5V power supply) and open collector (compatible with 5V/24V power supply).
A black metal DIN rail mounting bracket with a green printed circuit board (PCB) inserted into it.	HV320-PG-RB-V2	Support resolver
A black metal DIN rail mounting bracket with a green printed circuit board (PCB) inserted into it.	Communication card HV320-ECAT-V2	EtherCAT communication card
A black metal DIN rail mounting bracket with a green printed circuit board (PCB) inserted into it.	HV320-PNET-V2	Profinet communication card
A black metal DIN rail mounting bracket with a green printed circuit board (PCB) inserted into it.	HV320-DP-V2	Profibus-DP communication card
A black metal DIN rail mounting bracket with a green printed circuit board (PCB) inserted into it.	HV320-EIP-V2	Ethernet/IP communication card
A black metal DIN rail mounting bracket with a green printed circuit board (PCB) inserted into it.	HV320-CAN-V2	CANlink communication card
A black metal DIN rail mounting bracket with a green printed circuit board (PCB) inserted into it.	HV320-MTCP-V2	Modbus TCP communication card
A black metal DIN rail mounting bracket with a green printed circuit board (PCB) inserted into it.	HV320-RS485I-V2	RS485 communication card with isolation
A black metal DIN rail mounting bracket with a green printed circuit board (PCB) inserted into it.	I/O card HV320-IO1-V2	1 AO output (AO2); 2 DI inputs (DI7, DI8); 1 High-speed pulse output, 1 Relay output
A black metal DIN rail mounting bracket with a green printed circuit board (PCB) inserted into it.	HV320-IO2-V2	2 DI inputs (DI7, DI8); 2 Relay output
A black keypad device with a small LCD screen and several physical buttons.	Keypad HV320-LCD Keypad-V2	LCD display, support copy function
A black keypad device with a small LCD screen and several physical buttons.	HV320-LED Keypad-V2	LED display, monitoring drive status parameters

HNC ELECTRIC LIMITED is a company dedicated to the development and production of intelligent industrial automation solutions based on national strategic needs.

Supported by its outstanding electrical and electronic technology and strong control technology, it provides control, display, drive and system solutions and other related products and services to customers worldwide.

With 29 years of hard work, we have developed and produced professional CNC systems, industrial robots, servo drives, servo motors, reducers, inverters, PLCs, HMIs, etc.

In more than 80 countries and regions around the world, we have established a comprehensive agent system and after-sales service system. In the future, we will, as always, provide more professional services for global industrial automation.

**Thanks for choosing HNC product
Any technique support, please feel to contact our support team**
